

From here

Music & Lyrics by Andrea Leonhardi © 2015 / www.heavensjoyfullmusic.com / CD: „ Love Is Who We Are“ 2015

Do you walk through your life with all that you are - Let your light be seen
Let everybody see the beauty you are
So everyone remembers what is true

**And from here build everything in harmonie – you emanate your love
And from here build everything in harmonie – you emanate your love
And from here from the kingdom of your heart
Everything´s in beauty, everything´s in harmonie**

Bring your light to every angle – with every step of gold
Feel that you never walk alone – we walk on rock , connection - behold

**And from here build everything in harmonie – you emanate your love
And from here build everything in harmonie – you emanate your love
And from here from the kingdom of love
Everything´s in beauty, everything´s in harmonie**

BRIDGE SOLO - Guitar

Would you agree that no thought is truly free
You all days have to make this one choice
Do you say No when they get into your way
Do you still have the final say ?

**And from here we build everything in harmonie – we emanate our love
And from here we build everything in harmonie – we emanate our love
And from here from this kingdom of love
We bring everything in beauty, everything in harmonie**

BRIDGE SOLO - Guitar

Walk, talk, making love, bringing joy and grace
Live the preciousness you are - emanate your living space

**From divine strength we built the beauty - everyone returns to harmonie
With the joy of being one in one, build everything with harmonie
And from here from this kingdom of god
Everything is beauty, everything is harmonie**

**And from here we build everything in harmonie – we emanate our love
And from here we build everything in harmonie – we emanate our love
And from here from this kingdom of god
Everything is beauty, everything is harmonie**

Walk through life with all that you are - Let your light be seen
Let everybody see the beauty you are
We´ll all remember what is true
