

Starlight

Music & Lyrics by Andrea Leonhardi 2016 / www.heavensjoyfullmusic.com / CD: Under The Stars 2016

Only delicate tenderly we emanate
We live a purity for all to see

Knowing who we are enjoying our respons-ability
Cause we know that all we do influences you and me

**And yes we live this way we bring starlight here to stay
Look at me and you will see this love is a star**

Whilst we walk and clear all creation and old fear
We return to our source to the one-unifying truth

Wake up and see oh realise: what if your misery was a choice
Oh free the hold leave the old being you original and new

**And yes we live this way we bring starlight here to stay
Look at me and you will see this love is a star**

**Yes we live this way we bring starlight here to stay
Look and feel then you will see this love is a star**

Oh so delicate and powerfull we emanate
We live a purity for you to feel

Knowing who we are enjoying our respons-ability
'Cause we know that all we do influences all to be

**And yes we live this way we bring starlight here to stay
Look at me and you will see this love is a star**

There's another light there's another way forget the delay not a second
here to loose

Jump into your shoes know we come from far more than human You are a
star

There's another light there's another way forget the delay not a
second here to loose

Jump into your shoes know we come from far more than human You are
a star

**YES - we - live this way we bring starlight here to stay
Look at me and you will see this love is a star
Yes we live this way we bring starlight here to stay
Look and feel and you will see this love is a star**

**YES - we - live this way we bring starlight here to stay
Look at us and you will see this love is a star
Yes we live this way we bring starlight here to stay
Look and feel and you will see this love is a star**

**YES - we - live this way we bring starlight here to stay
Look and feel and you will see this love is a star
Yes we live this way we bring starlight here to stay
Look and feel and you will see this love is a star**
