

Heavenly

Music & Lyrics Andrea Leonhardi 2016 / www.heavensjoyfullmusic.com / CD: Under The Stars 2016

**Do you know how heavenly it is to be with you
Do you know how heavenly it is to be with you
Night and day this I can say**

We look up to the sky to the stars twinkling so bright
We know we are a part of this firmament

Your eyes shine like a star and your smile confirms we are
Part of this milkyway and part of this awesomeness
And down here we walk knowing that we shine
And we hold each other like the stars do

They live in pure harmonie they give space in space
Everyone is held in equal love

**Do you know how heavenly it is to be with you
Nighth and day**

Bring flower seeds to earth every day is like a birth
New begin and we can start brand new

So when we move or touch we touch the sky
And the stars above with their light confirm our smile
Everything we do goes everywhere and then returns
Like the stars do at night
Like the stars do at night

**Do you know how heavenly it is to be with you
All night and day - m m m mhhh**

So when we move or touch we touch the sky
And the stars above with their light confirm our smile
Everything we do goes everywhere and then returns
Like the stars do at night
Like the stars do at night

Do you know how heavenly it is to be with you
