

Under The Stars

Music & Lyrics by Andrea Leonhardi 2016 www.heavensjoyfullmusic.com / CD: Under The Stars 2016

Under the sky full of brilliant stars we settled down – in circles
Under the sky full of sparkling stars us together – we bring the future
Under the heaven full of a billion stars we set our footsteps - forever to come back to

Holding hearts in full vibration
Holding hearts in full vibration

Delicate like a wind on the sand we move our bodies - like sacred water
Our voices rise descending from the throne of glory - back down to earth
And we walk and dance more than a romance we are married - with the universe

Holding hearts in full vibration
Holding hearts – we serve evolution

Under the sky full of a brilliant stars we settled down – in circles
Under the sky full of sparkling stars us together – we'll bring the future
Under the heavens full of billion stars we set our footsteps - forever to come back to

Holding hearts in full vibration
Holding hearts – we serve evolution

Delicate like a wind on the sand we move our bodies - like sacred water
And each time when we leave we receive the great plan - and we hold on
And we walk and dance a big romance - are we married with the universe

Holding hearts in full vibration
Holding hearts – we serve evolution
