

## **Moonlight** Music & Lyrics Andrea Leonhardi | [www.heavensjoyfullmusic.com](http://www.heavensjoyfullmusic.com)

When the moonlight on the dark blue sky shines bright and round  
Hear the stillness, magic reigns our world

When the moonlight on the night blue sky shines bright and round  
Then we come together as one in one we are

When the horizon starts to glow  
We surrender and we flow  
Guided by the rhythm of univers  
We expand and serve

When the horizon starts to glow  
We surrender to that flow  
Then we stand together as one in one  
A new day we are

When our sacredness sends its fire to the womb of everyone  
Our cycles in sync will unify

When our sacredness sends its fire to the womb of everyone  
All thoughts will melt and our bodies sing  
The One Song

Then we stand together our bodies sing  
The One Song
