

Walk with grace

Music & Lyrics Andrea Leonhardi 2019 | www.heavensjoyfullmusic.com

We walk our grace
We walk our power
Delicate and strong

We know we walk a bigger purpose
Every detail counts from our power

Cycle after cycle a new begin
That keep us solid strong we expand
And our love will grow with power

Cycle after cycle a new begin
That keep us strong and we expand
And all we bring will grow with power

Sing along feel the joy
We restore with power
How we move sets the groove
We will fire the planet with power
We expand restore the truth
We walk soul and heaven

We walk our grace we walk our power
We respond our bodies hear
They know the way and we surrender
Our Joy will fill the space with power

Cycle after cycle a new begin
That keep us solid strong we expand
And our love will grow with power

Cycle after cycle a new begin
That keep us strong and we expand
And all we bring will grow with power

Sing along feel the joy
We restore with power
How we move sets the groove
We will fire the planet with power
We expand restore the truth
We walk soul and heaven

Cycle after cycle a new begin
That keep us solid strong we expand
And our love will grow with power

Cycle after cycle a new begin
That keep us strong we expand
And all we bring will grow with power
